55 Mill Street.

FREE ADMISSION

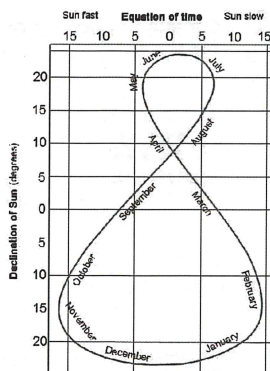

PARKING AT THE GALLERY DOORSTEP

See reverse for directions

INFO

ANALEMMA

An *analemma* is a visual representation of the equation of time. It is a term from astronomy that describes the figure created by the position of the sun at the same time every day during the earth's yearly rotation. The analemma created by our sun is a lopsided figure 8 or infinity symbol. Its nature is that of slight change over time, ultimately returning to trace the same pattern again. This work is about the same musical ideas seen from different angles or in differing situations. Just as the sun's analemma results from different positions in the sky, this work presents 3 related musical ideas in differing lengths, situations or combinations.
